Statistical Workshop

University of Verona

23-25 May 2011

The workshop is jointly organized by the two PRIN 2008 research projects:

APPROXIMATE LIKELIHOOD METHODS FOR HIGH-DIMENSIONAL DEPENDENCIES (scientific coordinator Prof. Paolo Vidoni)

Local partners:

University of Udine (coordinator Paolo Vidoni),

University of Padova (coordinator Laura Ventura),

University of Venezia (coordinator Carlo Gaetan),

University of Verona (coordinator Marco Minozzo);

NEW ROBUST METHODS FOR THE ANALYSIS OF COMPLEX DATA (scientific coordinator Prof. Marco Riani)

Local partners:

University of Parma (coordinator Marco Riani),

University of Benevento (coordinator Anna Clara Monti),

University of Verona (coordinator Luigi Grossi).

The purpose of the workshop is to bring together academics and students working in the areas of the two projects. All interested people are invited to participate.
